Case of Smith Baker and Megibbon Kimbrough Comes For Trial in County Court.

FOUR WITNESSES MISSING.

Defense Given Time to Produce Them at Examination Set for Tuesday, February 21.

The examining trial of Smith Baker and Megibbon Kimbrough, the two Lexington men who figured in the sensation which occurred in this city about two weeks ago, and which resulted in their arrest upon warrants sworn out charging a serious offense, was called in the county court Saturday morning at ten o'clock and upon motion of the attorneys for the defense, and owing to the absence of four witnesses for whom subpoenas had been issued from the Bourbon court, the case was continued until Tuesday, February 21.

The case attracted a great deal of attention and an hour before the case was to be called the county court room was filled to overflowing and hundreds unable to gain admission thronged the corridors. It was decided to hold the trial in the Circuit Court room which was crowded to overflowing, all the available seating and standing room being occupied by the eager spectators. The defendants were represented by Judge Gray Faulkner, Attorneys Wallace Muir, S. S. Yantis, of Lexington, and Hon. E. M. Dickson, of this city, while Attorney D. D. Cline, who conducted the prosecution in the absence of County Attorney George Batterton, who is ill at his home near the city, of typhoid fever, was assisted by City Attorney C. A. McMillan and Attorney J. Franklin Wallace of Lexington.

The defendants were accompanied in court by Mr. Robert L. Baker, Mrs. R. P. Stoll, Mrs. W. T. Clark and Mrs. W. R. Coughlin, the latter the mother of Megibbon Kimbrough. Miss Katie Lee Bright, the principal witness for the prosecution, was accompanied by her parents, Mr. and Mrs. Wm. Bright. The defendants demurred to the warrant and D. D. Cline, of counsel for the Commonwealth, asked permission to amend which was given and it specified the name of Miss Katherine Lee Bright as the offended party.

The defense announced that owing to the absence of certain witnesses, they could not enter into trial. Attorneys for the Commonwealth insisted upon the preparation of an affidavit setting forth the reasons for a continuance. Judge Dundon then adjourned court till 1:30 when the affidavit was produced and, being sworn to by both defendants, was objected to by counsel for the Commonwealth as being insufficient.

Attorneys for both sides presented authorities bearing upon the point at issue and Judge Dundon announced his decision continuing the case and fixing Tuesday, February 21, as the day for the trial.

The defendants executed bond in the sum of \$500 with J. G. Stoll as surety for Kimbrough and R. L. Baker for Baker.

PAYABLE IN ADVANCE.**State Cannot Collect.**

An important ruling, the effect of which will be state-wide, was handed down Friday by Judge Walter Lincoln, of the Jefferson Circuit Court, in which he holds the state cannot collect taxes on warehouse receipts. The decision was made in the case of Earl C. Huntsman, Revenue agent for the Commonwealth against the Kentucky Distilleries and Warehouse Company, commonly known as the "Whisky Trust."

The Court holds it to be unequitable to tax both property and income, and bases its decision upon the fact that the legislature, in which the constitution vests the right of levying a tax on income, has not taxed incomes heretofore, and until it does such an attempt to levy on warehouse receipts must necessarily be considered null.

Creelius Will Run.

Dr. C. F. Creelius, of Falmouth, author of the "Creelius tobacco bill" and candidate for the Democratic nomination for Secretary of State, has been put into the race for the Democratic nomination for State School Superintendent.

Death Sentence for Negro.

William Frazier, a negro, was sentenced to the electric chair Friday, after a trial in Georgetown, on charges of having assaulted a girl of his own race and beating her nearly to death when she resisted. The case is believed to have been the only one in this state where such a crime, with only negroes concerned, has resulted in the extreme penalty of the law.

Assessments Fixed.

The State Board of Valuation and Assessments last week fixed the assessments for corporation license tax of 30 cents on each \$1,000 of capital stock on the following companies: The Standard Sanitary Manufacturing Company, Louisville, \$780,000 for 1907, \$985,500 for 1908, \$1,083,750 for 1909 and \$1,218,000 for 1910, and the Ahrens & Ott Manufacturing Company, of Louisville, \$400,000 for each of the years from 1907 to 1910 inclusive.

Railroads Raised.

Railroad assessments in Kentucky practically have all been made by the State Board of Valuations and Assessments and several raises have been made. The board raised the L. & N. and C. a large amount. The Louisville Southern railroad was doubled in valuation and must pay taxes on its franchise at a value of \$10,000 a mile instead of \$5,000. The C. & O. railroad was assessed at \$5,000 a mile, the same as it has been. The Q. & C. was raised \$2,000 a mile.

Earnings of Kentucky Railroads.

The railroads of Kentucky earned \$17,000,000 during the last year, according to a statement of receipts and expenses as compiled by Roy Wilhoit, rate clerk for the Railroad Commission at Frankfort. The total earnings of the railroads were \$16,778,001. The operating expenses were \$29,281,165. The freight earnings were \$34,298,792 and the passenger earnings \$9,989,294. There was a gain over the preceding year of \$3,600,000.

Owens Egyptian Coin Worth \$1,000.

Col. George F. Anderson, says the Danville Advocate, on Saturday received from the National Museum, of Washington City, the old coin that was found on his farm some months ago, twenty feet under the earth. Some workmen were excavating a well and at a depth of twenty feet the coin was struck. The experts in charge of the National Museum state that the coin was made 200 years before Christ during the reign of King Ptolemy. The coin is over 2,100 years old and the mystery is how it reached a point twenty feet beneath the earth. The indications are that this country was visited by people from the old country long before the days of Christopher Columbus. Mr. Anderson was told that the coin was worth \$1,000.

Aged Lover Outwits Gertie's Parents.

That age cannot break Dan Cupid's hold on human nature is shown in the elopement of Octave Poynter, aged 60, with Gertrude Cook, aged 15, a pretty school girl in Monroe county. The couple were married at Jeffersonville, Indiana. Because of the disparity in the ages of the couple the parents of the bride opposed the marriage bitterly.

The persistence of the old man caused the girl's parents to lock her in the house, and the venerable lover left the county. After his departure the girl was given her freedom. A few days ago Poynter came back, secreted himself in the woods near the Cook home. When Gertrude was sent to the spring to get water Poynter met her and persuaded her to elope.

Attack Like Tigers.

In fighting to keep the blood pure the white corsages attack like tigers disease germs. But often germs multiply so fast the little fighters are overcome. Then see pimples, boils, eczema, salt rheum and sores multiply and strength and appetite fail. This condition demands Electric Bitters to regulate stomach, liver and kidneys and to expel poisons from the blood. "They are the best blood purifier," writes C. T. Budahn, of Tracy, Calif., "I have ever found." They make rich, red blood, strong nerves and build up your health. Try Them. 50 cents at Oberdorfer's.

Iceland Gloves.

In so cold a climate the glove must be put off or on as rapidly and easily as possible so it is made without fingers, and in order that no time may be wasted in distinguishing between right and left all gloves have two thumbs. You simply thrust your hand into the first glove that comes and your thumb immediately finds its way. There are of course drawbacks in the matter of appearance, for the dangling idle thumb looks untidy.

Reverses Little Death Sentence.

The Court of Appeals Tuesday reversed the Breathitt Circuit Court in the case of Charles Little vs. Commonwealth and grants Little a new trial on the ground that he was hurried into trial and forced to plead guilty for fear he would be mobbed if he did not. Little shot and killed Matt Crawford last October and was sentenced to be electrocuted.

Good Advice at Any Time.

The girl who wishes to relieve her life of monotony, who wishes to put behind the old things of the old year must make new friends, read new books, think new thoughts. Thus she will "Ring out the old, ring in the new," and her life shall be richer and fuller thereby.—Exchange.

Accuse of Stealing.

E. E. Chamberlain, of Clinton, Me., boldly accuses Bucklen's Arnica Salve of stealing—the sting from burns or scalds—the pain from sores of all kinds—the distress from boils or piles. "It robs cuts, corns, bruises or injuries of their terror," he says, "as a healing remedy its equal don't exist. Only 25 cents at Oberdorfer's."

Ancient and Modern Boy.

We shall hear much in the coming years about the superiority of the Greek attitude to life, and that in those days men could think straight about morals. And we shall hold the essence of that superiority, and understand all that we hear, by remembering this—that if you told a hardy Greek boy that a person was virtuous, or an act was good, he would be attracted to that person or that act, but the same modern boy would be repelled.—Max Eastman, in the Atlantic.

"I Suffered Intense Pains in My Left Side."

Do you realize it is better to be safe than sorry, that it is the best policy to lock the stable door before the horse is stolen?

Dr. Miles' Heart Remedy

cured Mrs. C. C. Gokey, of a stubborn case of heart disease, such as thousands are now suffering with. Read what she says:

"Before I began taking Dr. Miles' Heart Remedy I had been suffering from heart trouble for over five years. I had grown so weak that it was impossible for me to do thirty minutes work in a whole day. I suffered intense pains in my left side and under the left shoulder blade. I could not sleep on the left side, and was so short of breath that I thought I should never be able to take a full breath again. The least excitement would bring on the most distressing palpitation. I had scarcely taken a half-bottle of the Heart Remedy before I could see a marked change in my condition. I began to sleep well, had a good appetite, and improved so rapidly that when I had taken six bottles I was completely cured."

If you have any of the symptoms Mrs. Gokey mentions, it is your duty to protect yourself.

Dr. Miles' Heart Remedy.

is what you need. If the first bottle fails to benefit, your money is returned. Ask your druggist.

Chinese Compressed Seed Tea.
The Mandarin or virgin tea of China consists of the leaves and twigs of the tea-plant, which are tied up in little silk bundles. But the compressed seed tea of the Chinese is even more remarkable. It is tea preserved with its seeds and pressed into a compact mass under the bare feet of Chinese damsels, thousands of girls being employed for the purpose on the great tea plantations. It is considered a great delicacy in the Orient.

BRILLIANT SOCIAL EVENT

M. M. I. Senior-Junior Dance the Most Beautiful Function in Institution's History.

CANADIAN LAND IS SOLD.

J. M. Caldwell Disposes of Five Hundred Acres at a Profit—Millersburg Notes.

The first annual dance of the Senior-Junior classes of the M. M. I. was held Friday evening from 8 till 12 in the drill hall. For the past several years these classes have been giving individual dances on a somewhat smaller scale. It was decided this year to give a joint midwinter dance, which has been looked forward to by a society circle in this and our sister towns, as one of the pleasant events of the winter. The cadets have been enthusiastic and with the help of Mrs. Best, who cannot be excelled in social functions, made of this the crowning social event of the institution.

The dances which have been held in the past have been pleasant and even brilliant, but the Senior-Junior dance of Friday evening surpasses all of its predecessors in numbers, brilliancy, dress and pleasure. The weather, with all interested, has been the absorbing topic of conversation for several days, as much depended on it. Early in the morning of Friday all realized that the coming event would be a crowning success and the weather seemed to have been created for the occasion.

Guests arrived on all tr-trs during the day and the holiday spirit seemed to pervade everybody. The evening train from Lexington brought in more than forty beautiful young ladies and chaperones. Col. and Mrs. Best left nothing undone that would enhance the pleasure of the occasion. All of the lower floor of the main building of the institution was thrown open to the accommodation of the guests. The spacious drill hall was decorated in true military style. This, with penants of many colleges and universities, created a beautiful scene and one did not have to draw on the imagination to fancy that he or she was at a national military ball. The music was furnished by the Wright Saxophone Band of Columbus, Ohio.

At shortly after eight o'clock the grand march opened, which was participated in by twenty-three couples. In this all the dancing cadets were introduced. The figures were good and well executed, after which the program of twenty-four numbers was begun. It was a brilliant aspect. At times the floor was somewhat crowded as more than fifty couples were dancing. It was a brilliant occasion made up of the representative people of this and all the surrounding towns.

When the first half of the program was completed lunch was announced in the dining room, but owing to the large crowd about half of the number was taken in at a time, and during four or five numbers, while lunch was in progress, there was just enough on the floor to make it comfortable. The dining room was decorated with penants and beautiful cut flowers. A delightful lunch was served, Mrs. Best being assisted by many of the prominent ladies of our town. At 12:30 a. m. the "Home Sweet Home" waltz was played, after which the guests made ready to retire to their places of assignment and dream of this as one of the most pleasant occasions in life.

Col. and Mrs. Best entertained fifty-one guests for the night. The following is a partial list of visitors: Mr. and Mrs. Tandy Hughes, Miss Foster, Miss Martin, Miss Brogee, Miss Winters, Messrs. Zimmerman, Gratz, Reese, Maul McDonald, Lane, Howard, Ramsey, Cunningham, Gordon, Mrs. I. J. Miller, Mrs. Jesse Miller and Miss Hull, Lexington; Mrs. L. Automobile Collides With Wagon

An accident which occurred a short distance this side of Porter Station on the Mayville division of the L. & N. Saturday afternoon, nearly cost James Joseph, his wife and little child their lives when an automobile being driven by Thomas Howard, of Lexington, collided with the wagon they were driving.

Joseph, who is from Carlisle, was enroute to Paris where he will engage in the grocery business, having leased the storehouse on West Second street formerly occupied by the late W. H. Myers, and in a light spring wagon was moving a portion of his household effects. A short distance from Porter, Howard, who is a son of Chas. Howard, formerly of Millersburg, and who it is said was driving his car at a high rate of speed, ran into the wagon completely demolishing the vehicle.

The occupants were thrown out by the force of the collision and Mrs. Joseph sustained a fracture of the left arm and other injuries while her husband was severely bruised about the head and body. The baby, which was in the arms of the mother, was hurled a distance of fifteen feet to the side of the road and was painfully hurt. They were brought to Paris where they received medical attention.

PARIS CATCHER IS SOLD

Wesley Holder is Disposed of to The Terre Haute Club of The Central League.

PRES. USSERY SIGNS UMPIRE

Richmond and Frankfort Working to Hold Places—Winchester is Busy.

President J. W. Bacon, of the Paris Base Ball Club closed a deal Saturday for the sale of Wesley Holder, of Lyons, Ind., who was last year the mainstay of the Paris club behind the bat, to the Terre Haute Club of the Central League. The sale of Holder makes the seventh member of the Blue Grass League champions of last year to advance to higher leagues.

Umpire Jack Ronan has been ordered by the Blue Grass League to report in Paris, May 8. He is to receive the regular League pay—\$125 a month and expenses.

The Frankfort News says: "It is known to be a fact that one of the best evidences of a live progressive city is the fact that the citizens are willing to contribute enough money to pay a part of the expense of running a good base ball club in a good league is allowed to drop out, the common expression is 'Well, that is a dead town.' "Right now it is a question as to whether Frankfort will be classed as such a town or not. Unless a sufficient sum of money can be raised in the next few days to guarantee the manager against a big loss, the Frankfort franchise in the Blue Grass League will have to be surrendered. The committee that has been soliciting has met with considerable success so far and a number of liberal subscriptions are expected today and Friday. "The reputation of Frankfort for progressiveness is at stake and the public spirited citizens should help out the club whether they can attend the ball games or not every time one is played. It would be a shame to let it be said that cities like Paris, Mayville and Winchester can raise enough money to remain in the Blue Grass League and Frankfort cannot."

What Richmond expects to do to get her club in shape for this season is a matter of deep concern in the Pioneer city. The hopes are dim and prospects rather discouraging, from the fact that no one will volunteer to take up the responsibility of managing a team from a business standpoint.

Suit has been filed in the Madison Circuit Court by the Southern National Bank for \$3,000 against the Richmond base ball association last year, which has decided to allow the park to be sold to pay the debt. The old association refuses absolutely to have anything to do with reorganizing, and as nearly every business man of the town was connected with the former club, it leaves no one who will take hold and push the organization of a new club. As the time grows nearer, it is believed, however, that Richmond will have a team, but there is nothing to depend upon just now. A meeting of the old stockholders is scheduled for February 15, at which time it is believed some plan will be formulated whereby Richmond will again be represented in the league.

The Winchester Democrat says: "But little has been said in regard to the Winchester base ball club, but since the double section has been adopted, work has been begun on the team for 1911. The sales of Toney to the Chicago club and Kircher to the Southern League has reduced the deficit left by the last disastrous season. Contracts have been sent to the old players and they will report in due time. Coleman will be manager and a new pitcher and new catcher have been signed."

All Leather at cost price.

Splendid Collection of Pictures.

The state of Illinois has loaned the State Federation of Women's Clubs a splendid collection of pictures which has been secured for exhibition by the Paris Literary Club, and may be seen at the public library today and tomorrow. The library will be open from ten a. m. till eight p. m. This is a splendid opportunity for seeing really good work which should not be neglected.

Movement is Now on Foot.

That Paris will make an exceptionally strong effort to secure the forthcoming Republican convention of the Third Railroad District, is evidenced by the activity which is being demonstrated by several of our public-spirited citizens, irrespective of political affiliations, and the effort to raise funds to meet the expense of the convention is being rewarded.

At the meeting of the committee which is to be held in Mt. Sterling on March 11, a large delegation of prominent Republicans headed by City Collector Stamps Moore will be present to present the claims of Paris in an effort to secure the convention for this city.

The petition which has been in circulation for several days for the purpose of raising funds to meet the expense of the convention, should the committee decide to hold it in Paris, is being liberally signed, and there is little doubt but that a sufficient support can be secured.

If Paris is determined upon as the place for the holding of the convention the Circuit Court room will probably be used. The convention was held in this city in 1893 at the old Christian church and lasted for several days. It would bring to Paris about seven hundred delegates to the convention besides a large number of visitors from all parts of the state. Paris, with its admirable railroad facilities, is the most logical place for the holding of the convention.

Salt on the Bird's Tail

Story of a Mardi Gras Masquerade

By SAMUEL E. BRANT

Copyright by American Press Association, 1911.

"Who is the biggest fool you ever met?"

"Man or woman?"

"Woman."

"The girl I'm engaged to."

"Well, I like that. What kind of wife do you expect her to make?"

"How should I know her qualifications for a wife? Marriage is a lottery. Other men may marry for qualifications, but we youngsters don't pretend to forecast what a girl's going to be. And I don't believe the old ones hit it any better than we."

"What makes you set your fiancée down as a fool?"

"I'll tell you, but I must begin back a little way. She's Madge Whitridge, only it should be Madge Wildfire instead. Not that she is so wild as she was. She's been quieted down a bit by a certain little happening that came near resulting disastrously. She nearly caused my death."

"You don't mean it! Not intentionally, I suppose."

"Well, whether there was a spark of intention in it I don't know. You never can tell what a woman is going to do or why she does it. We can't be sure she knows herself. If Madge had caused my death any prosecuting attorney might have made a very good case against her of doing it with malice aforethought. And to tell the truth I'm not sure but she did."

"And you're going to marry her?"

"You bet—that is, if she doesn't shake me for another fellow, though I don't think she would do that now. She might have done it before this thing I'm going to tell you about happened; but, as I said, it sobered her, and she's quite tame. That's the time I chose for putting salt on the bird's tail."

"There's more appropriateness in this simile than you may imagine, as you'll see in a moment. But for the incident. We 'floor gliders,' as one called our dancing club of young people—there was not one over twenty, and some of the girls weren't over fifteen—concluded we'd celebrate the Mardi Gras with a masquerade ball. I'd been getting sweet on Madge—Wildfire I may as well call her—and about the time the costumes were being arranged I was sitting up to her like a sick kitten to a warm brick. In fact, we arranged to have corresponding costumes for the ball."

"This was after Rostand's play of 'Chantecler' came out, and everybody was talking about it. You know that the leading lady chicken in the play is the hen pheasant, the leading gentleman being the rooster chantecler. We concluded to get ourselves up as these two birds. I was a month arranging my outfit—I did it all myself, you know—but when I got it done it was a corker. I made the body of a rooster, which I strapped under my arms, with an elegant head and comb in front and a fine display of cock's tail behind, the tail being made of tissue paper of different colors. You couldn't have told it from the real thing."

"I went to see Madge the afternoon before the ball. It so happened that we got to quarreling, and I went off in a huff. This was unfortunate, to say the least. We had spent a lot of time getting up our bird rigs and expected to make a lot of fun billing and cooing during the ball, and the worst of it was, now that we were in just the opposite condition from what we expected, we hadn't time to get other rigs."

"What was the cause of the quarrel?"

"We tried on our costumes in advance, and when she walked I told her she waddled like a duck. That made her mad, and she fired back, and we soon were in for hot and heavy."

"When the ball came off, instead of walking about together, I strutting, she cuddling up beside me, we were as far apart as possible and when we met glared at each other. After awhile I saw her sitting in a window with Ned Tucker. This made me all fired jealous as well as mad, and to show my spleen what did I do but go up near where they were sitting and whisk around with the intention of turning my back on Madge. I didn't calculate how near my tail feathers were to them, but it seems they brushed their faces. This made Madge madder than ever. Ned had just struck a match to light a cigarette. Madge jerked it out of his hand and held it under the tip of my tail."

"In a second the whole of it was in flames. I tried to get the rooster part of me off, but it was tied on so well that I couldn't do it. The flames ran from the tail to the wings and from the wings to the rest of the body. The whole roomful of people rushed toward me, scared out of their seven senses, every one crying, 'Put him out!' Whether they meant to put out the flames or put me out to prevent my setting them all afire I don't know. I was howling with the burns and with fear when a Roman senator took off his toga and wrapped it about me."

"I was taken to a carriage and home. I wasn't burned at all, but just to punish the confounded girl that applied the match I gave out that I might die. She was knocked clean out, and when I let up on her she wilted. She had put a match to my tail; I put salt on hers and caught her."

"You mean she caught you. There are lots of men who think they do the catching when they are caught themselves."

Motor Too Quiet-Arrested.

The 1911 season has unquestionably accomplished much in the way of quiet running motors. An unusual and rather amusing incident of this was recently given in Los Angeles. J. B. Morrow, who owns an Inter-State, left the car alongside the sidewalk, thinking he had shut off the motor. A short circuit, however, kept the engine running, but so quietly that Morrow did not detect it. A number of the Los Angeles police force coming up the sidewalk also thought the motor dead, and in order to grab a moments repose leaned up against the car's hood. He then detected a slight vibration, made investigation and found the motor running most industriously. He arrested Morrow for leaving the engine running for over a half hour on the street.—From the San Francisco Bulletin.

Thirty Years Together.

Thirty years of association—Think of it. How the merit of a good thing stands out in that time—or the worthlessness of a bad thing. So there is no guesswork in this evidence of Thos. Ariss, of Concord, Mich., who writes: "I have used Dr. King's Few Discoveries for thirty years, and it is the best cough and cold cure I ever used." Once it finds entrance in a home you can't pry it out. Many families have used it forty years. It is the most infallible throat and lung medicine on earth. Unequaled for lagrippe, asthma, hayfever, croup, quinsy or sore lungs. Price 50 cents and \$1.00. Trial bottle free. Guaranteed by Oberdorfer.

Did You Ever Think It Over?

That a man can do what is right in any kind of business. Six years ago, when I first came to this city, you had parties in the same line of my business that did about ten per cent. of the business I am doing to-day.

Do You Know the Reason Why?

"It's because I give one and all that deals with me a square, honest deal. I owe my success in business to the fact that I always give correct, honest weight and the highest market price."

STOCK, CROP AND FARM NOTES

—One hundred and eighty-nine horses have been entered in the four new stakes announced for the spring meeting of the Kentucky Association, which owns the running track in Lexington. These stakes are the Brewster's, Elmerdorf, Kessel and Phoenix Hotel, all worth about \$1,200 each. They have forty-four, fifty, fifty-six and thirty-six entries respectively.

—Carlisle Mercury: "The big combination sale of horses, mules, Jersey cows, sheep and hogs held in this city last Saturday by H. N. Rankin was quite a success. A large crowd present and active bidding. 21 head of mules sold at from \$250 to \$497.50 per pair, 15 head of saddle and harness horses brought from \$100 to \$240 per head, 15 cows an average of \$55 per head, 57 sheep at \$4.25 per head, and 31 head of hogs sold at \$9 per head.

—RICHMOND COURT.—The Circuit says: "Monday was a corker in point of attendance of the court day rowd, as well as the amount and class of stock offered for sale. About fifty mules changed hands at prices \$150 to \$430 the pair and single mules sold from \$200 to \$225. Bidding was lively, much more than was expected on account of the high prices and the owners held out for the top price. At the Madison stock yards Manager Joe Smiley reports one of the best court days in years, in fact the highest prices for cattle in twenty years, yearlings ranging from 5 to 5 1/2 and heifers 5 cents. Hogs were plentiful and sold at 8 cents. Practically all of the stock was shipped out of the county and much of it out of the state."

Care of Umbrella.

Do not open an umbrella to dry it, nor let it stand on its ferrule. Either method is destructive to this useful article, the former because the ribs will be warped by being bent by the silk, so that the neat, tight rolling will be impossible in a short time; and the second because the water resting about the top will rot the covering. Stand the umbrella, closed, but not rolled, with the handle downward, then when the silk is perfectly dry, rub it with a cloth to restore the gloss.

Combines Telephone and Clock.

The average office equipment of the present day calls for a number of wires entering the place, public and private telephones, messenger calls, electric clock and similar conveniences. In order to cut down the number of these a new electrical invention combines the telephone and the clock, the same wires being utilized for each of these functions. The clock and telephone are mounted together on the same base, and after being placed on the wall the clock requires no further attention, such as winding and setting.

How to Mend an Egg-Beater.

Don't throw away your Dover egg beater just because it "skips" if it is otherwise good. Take some soft twine and twist tightly around under the head of the screw in the center of the wheel, until you have enough on to make it run firmly. It may wear off in a week or two, but is easily replaced, and I have found that it prolongs the working life of the egg beater indefinitely.—Woman's Home Companion.

Sample Helps Frail Women

So many women are dragging out weary lives just because their digestive organs are weak. The result is poor circulation, nervousness and the verge of invalidism. It is often very unnecessary and the woman's own fault.

The first thing to do is to look to the welfare of your bowels. There the trouble usually lies. All physicians know that a large percentage of women are habitually constipated, and from this result indigestion, piles, weariness, etc., that women constantly complain of. But there is no use taking "female remedies" and things of that kind until you have started your bowels to moving. You will find that when the bowels move regularly once or twice a day all your petty ills will disappear. Take a good, mild laxative tonic like Dr. Caldwell's Syrup Pepsin for awhile and you will find yourself rapidly getting better and stronger, your bowels will regulate themselves and work at stated times, and then your headaches and dizziness will disappear. Don't take strong cathartics or pills, but just such a mild and pleasant-tasting remedy as Dr. Caldwell's Syrup Pepsin.

You can obtain a bottle of your druggist for fifty cents or one dollar, and either size may be enough to permanently cure you. Thousands of women keep it regularly in the house and will no longer be without it, as it cures them and can be used with safety by every member of the family, down to the youngest child, but if you have never used it take the advice of Mrs. Earl S. Cox, 409 Twenty-fifth street, Moline, Ill., and Mrs. Ellen Dungan, Muncie, Ind., and send to Dr. Caldwell for a free trial bottle, as they did, and learn for yourself what it will do in your own case. That it will cure you, as it did them, there is no doubt.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 500 Caldwell building, Monticello, Ill.

A Fire Fighter's Astounding Story OF THE UNPARALLELED MERITS OF "BLOODINE"

HARRY A. GLAZIER

A Prominent Fireman of Malden, Mass., writes:

Mar. 28th, 1909.
 Last winter I had a severe cold and it settled on my kidneys, causing the most excruciating pain almost every time I attempted to move; I had tried everything imaginable to get relief, with no success, until I was advised to try "Bloodine," which to my great surprise, gave me relief almost from the first dose, and before I had taken one bottle I was completely cured. "Bloodine" is a wonderful, vitalizing tonic. If the blood is impure, complexion bad, appetite lost, strength gone, and the whole system is upset by an accumulation of humors, it is time to try "Bloodine" today.

ENGINE WHICH MR. GLAZIER RUNS.

Signs of Danger.

They called it most everything, and I got no better. Please send me a sample bottle of your Bloodine for which I enclose ten cents in stamps to pay for same. If it will do me any good I will take it the rest of my life. Signed, MRS. OCTAVIA E. CARPENTER.

 Gentlemen:—I received your trial bottle of Bloodine. That was not enough to do much for me, for I am very bad and weak, passing quite a lot of blood. Bourbon County Assessment.

Some interesting facts and figures are brought out in the annual assessment report of County Assessor W. G. McClintock, which was approved by the County Board of Supervisors and tabulated by County Clerk Pearce Paton.

The wealth of Bourbon county has increased during the past year in the sum of \$679,045, of which amount \$37,690 represents the increased value of taxable property belonging to negroes. The work of assessor McClintock and his deputies was thoroughly done and the increased value of all taxable property shows that an area of prosperity prevails throughout the county. The average value of Bourbon County farms, taken as a whole for the purposes of taxation, is fixed at \$56.25 per acre.

Number of acres of land 184,602, value \$10,382,715.

The total assessed valuation of all personal property in the form of cash, notes and other securities, aggregates \$1,202,580. The total value of all personal property comprising live stock, farm implements, building material and merchandise, amounts to \$1,690,155; grand total \$15,811,150.

The number of dogs assessed in the county, aggregates 1,461.

The number of males over the age of 21 years is 4,228.

The negroes of the county own a total of 770 acres of land, valued at \$51,925; 1,062 town lots, valued at \$232,605, and personal property valued at \$2,800, or a total of \$257,335. The number of negro males over the age of 21 years is 1,548.

Girl Pupil is Hypnotised.

Miss Ida Isham, a teacher in a Cincinnati school, ordered her class to play a "sleeping" game and all her pupils closed their eyes as if to sleep. A moment later she called the class to awaken. All the children promptly obeyed except "Peggy" Gordon. The child was carried to an ante-room, where unsuccessful efforts for two hours were made to awaken her. Finally the mother appeared and by crying "Awake" several times aroused her. Physicians pronounce it an unusual case of hypnotism.

Know Little of Corn's Value.

The use of Indian corn as a food product is very limited in the United Kingdom, and there are reasons for it other than the absence of taste. Apparently the British public is not properly enlightened as to the various ways of preparing tinned corn, corn meal and hominy. It would seem that little is known of the vegetable itself, as recipes in some English cookbooks make very meager reference to its preparation.

Skovgaard's \$50,000 Hand.

It took Skovgaard, the famous Danish violinist, thirty years to make this hand. To the ordinary eye it is not very different from other well developed hands. Yet it has the power almost automatically to express through the violin the exquisite beauty and marvellous tone-pictures which the player feels and sees as he interprets the work of the masters. Incessant training and the inborn soul of the artist fashioned it. You

cannot make genius. But genius and the power of untiring work created this marvellous tool, now at last, without his even thinking of it, obedient in every slightest movement, strong, tender, delicate, passionate, incredibly swift, to the wonderful dreams of the soul of its creator.

As an investment it represents a man's life-work. But it represents, too, the inborn gift which no money can buy. Without that no work could mould a hand like this hand of a master.

That is why it is insured for fifty thousand dollars.

The Skovgaard Concert Co., will fill an engagement in this city on Monday, February 27, at the High School Auditorium. The concert is given for the benefit of the Methodist church.

J. Phillip Terry further Honored

The Royal Geographical Society of London, an institution founded in 1830 by the great explorers of that date, has recently elected Mr. T. Phillip Terry a Fellow. This is indeed a high honor. The late Henry M. Stanley was a member, and among the very few Americans who can now claim membership is Commander Robert E. Peary, of Arctic exploration fame.

Mr. Terry, who is a brother of Misses Beatrice and Margaret Terry of this city, left his home in Paris something over twenty-five years ago, when a mere lad, for the West. He secured a position in Kansas City with the Wells, Fargo Express Company, and after serving some time with them as an employee in the office and then as express messenger, he removed to Mexico City, Mexico, where he secured employment with an American firm.

During his leisure hours he applied himself diligently to the study of the Spanish language, which he mastered so completely that within a few years he issued an "interpreter" to be used by visitors to that country, and which met with such success that it is now running through the thirteenth edition. His success in a business way in Mexico attracted the attention of a great syndicate in New York, who secured his services as a commercial missionary. His field was the world. He was not expected to sell any goods, but to visit foreign countries and work up a feeling of good fellowship among the Japanese, Chinese, Koreans, Russians, French and all other foreign merchants for American dealers. He would be followed in a short time by the salesman, who would secure large orders for their houses. In this capacity he made seven complete trips around the globe, being accompanied by his wife. One of his children was born in Yokohama, Japan.

Six years ago he resigned his position and gave his attention to a business which he had started while living in Mexico and which had grown so rapidly that it needed his personal services. Meanwhile he wrote and gave to the travelers of the world "Terry's Mexico," said to be the most complete guide book ever published. It is superior to the famous Baedeker of Europe, because it is more complete, and is written in the charming literary style that makes it valuable as a library book even to those who cannot visit the scenes it depicts. This book is meeting with a phenomenal sale.

It attracted the attention of President Porfirio Diaz, who sent for Mr. Terry and personally thanked him for his great work. Many of the books were bought by the Mexican government to send to its consuls, ambassadors, etc., and all of the railroads that now gridiron the republic on our South supplied their non-resident agents with them that they might be placed in the hands of these visiting that country. Although this book has not been out a great while, it is now in its second edition and the demand for it has not diminished in the least.

When on a recent visit to his sisters in Paris he arranged for the erection of two dwelling houses in Paris on the lot at Twelfth and Main streets, where he spent his boyhood, thinking that he would spend at least a part of the summer in Paris to see after their construction. But on arriving in Boston, the desire to again visit the East came over him, so on next Thursday he and his wife will leave for San Francisco, where they will take ship for Japan, China, Korea and other countries.

Urbs in Rure.

Patent leather shoes were prominent among the Grangers, rather than boots. The only two men of our acquaintance who wear boots, except while engaged in farm labor, are both bankers. One of these men has a son who is a working farmer, and he wears patent leather shoes when he dresses up.—Maine Farmer.

Bridge Carpenter Injured by Fall.

Wm. Warren, a bridge carpenter, fell from the steel bridge over Hous-ton creek Friday, a distance of thirty-five feet. Warren struck a piece of timber in his descent which broke the force of his fall. He was picked up and taken to the Cox boarding house where his injuries received attention. He was not seriously injured, and was able to be out yesterday.

PUBLIC SALE

OF SPLENDID

Bourbon County Farm.

ON TUESDAY, FEB. 21, 1911,

at 1 o'clock p. m., on the premises, we will sell at public auction, a tract of 293 acres, five miles from Paris, on the Jacktown turnpike and Tarr Station pike, one mile from Tarr Station, belonging to Mrs. S. G. Clay.

Ten room frame dwelling in perfect repair, with splendid dry cellar under nearly the whole house. Ice house, carriage house, meat house, hen houses, granary, two cabins, two corn cribs, two horse barns.

The farm divided into six pastures with never failing water in each enclosure and every fence, outside and inside, new and hog proof.
